

# MULE UT LAB

BY ARMORLITE TECHNOLOGIES INC

The MULE is our multi-purpose cabinet system coupled with our exobody labs creating a true quick change ultrasonic unit! The MULE features:

- Tool-less 5 min installation
- Fully insulated construction
- 100% customizable cabinet layouts
- Dummy slide / bed slide options
- Accepts 42" calibration block size
- 85 gallon water tank with remote fill
- High power 2000W Inverter
- 200AH AGM Battery standard

Removes in minutes

Impact protection on doors/walls

Extreme durability

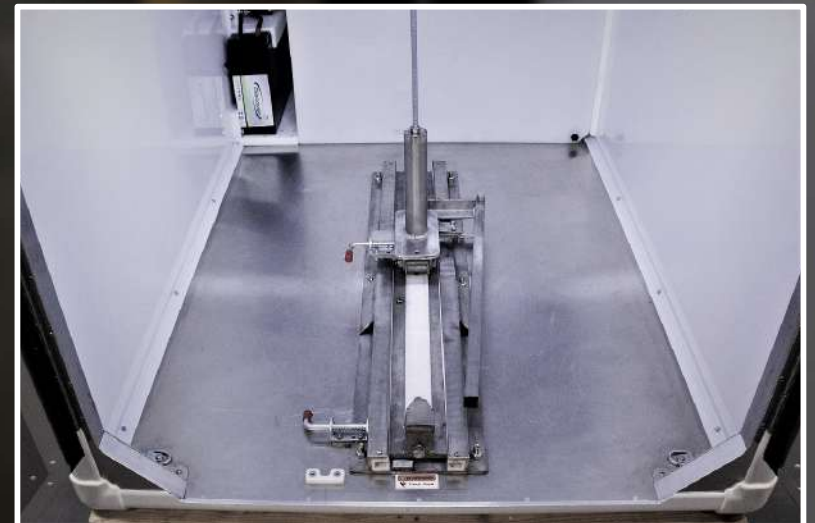

Lifetime structural warranty

No truck modification lets you rent your fleet and save on maintenance and carrying costs.

The open interior of our UT labs has mounting locations for a dual stage dummy holder, or a full width bed slide.

Switch to a MULE and replace 5 different service canopies!

The integrated lifting hooks and roof rack allow all MULE units to stack safely for storage.

Custom cabinet configurations gives a multitude of storage options as well as bolting location for specialty equipment.

Bolt on attachments such as diesel heaters, generators and exterior lighting make these labs a true standalone work unit. Attach to a truck, trailer or drop into location via helicopter, the options are limitless!

All Exobody labs are constructed with our custom manufactured composite panels and aluminum exoskeleton frame.

Every unit is built to exacting standards with consistency throughout your fleet taking the guess work out of repairs.

Units starting at \$ 13,900!
