

Dye Penetrant Waste Processing System

Change This ↩

To ...

This ↩

- ◆ System extracts clean water from penetrant washwater for discharge to sewer or septic system
- ◆ No need for expensive activated carbon
- ◆ Water will not fluoresce and can be re-used for a closed-loop system
- ◆ Reduce high costs of off-site disposal
- ◆ Fully automated and energy-efficient
- ◆ Systems in use by major aerospace, military and automotive customers
- ◆ Compact, portable models starting at 50 gallons per day capacity
